

Regression Run Report

Remitbee CP Playwright flow suite · @regression · staging cp.wisecapitals.com

Result: 322 of 328 executed tests passed (98.2%). 6 failed, 7 skipped. Help and Currency converter are switched off for now (not configured on staging), so this run covers 17 modules and 335 tests. PA-16 (invalid OTP), which failed in today's re-run, **passed** this time. Half of the failures are again on the Send Money page of the shared test account under parallel load.

Run details

05 Oct 2026, 15:59 - 16:40 IST · 6 browsers in parallel (headless) · duration 40m 40s · staging cp.wisecapitals.com

335	322	6	7	98.2%
total tests	passed	failed	skipped	pass rate (executed)

6 browsers ran in parallel (headless). Compared with this morning's 10-browser run (11 failures), failures dropped to 6.

Results by module

#	Module	Tests	Passed	Failed	Skipped	Time*	Status
00	Signup	30	27	0	3	3m 14s	Pass*
01	Auth	31	29	1	1	5m 26s	Fail
02	Dashboard	13	13	0	-	4m 58s	Pass
03	Send Money	20	17	3	-	16m 2s	Fail
04	Exchange	20	19	1	-	12m 13s	Fail
05	Wallet	14	14	0	-	8m 9s	Pass
06	Recipients	24	24	0	-	18m 13s	Pass
07	Settings	15	15	0	-	9m 58s	Pass
08	Transactions	18	18	0	-	8m 49s	Pass
09	Rates	18	18	0	-	8m 40s	Pass
10	Rewards	15	15	0	-	8m 41s	Pass
11	Schedule transfer	30	30	0	-	26m 22s	Pass
12	Verification	17	17	0	-	6m 44s	Pass
13	Account	20	20	0	-	7m 26s	Pass
14	Escalation	20	19	1	-	10m 26s	Fail
15	DT One	20	17	0	3	8m 43s	Pass*
16	Referral	10	10	0	-	4m 48s	Pass
Total		335	322	6	7		

Time* = total test time in that module (browsers run modules side by side, so these add up to more than the run time).
Pass* = all executed tests passed; module has skipped tests.

Failed tests (6)

Module	Test	What happened
Auth	PA-29 pressing back after login stays authenticated	After pressing Back the user was on the login page instead of staying signed in.
Send Money	SM-06 existing recipient visible in recipient list	Send money page did not finish loading in 40 s.
Send Money	SM-17 fee displayed on send money page	Fee check did not settle within 45 s (page loaded: amount 12.00 CAD → 1,004.93 INR).
Send Money	SM-20 payment method edit option visible	Send money page did not finish loading in 40 s.
Exchange	CE-07 USD to CAD exchange shows conversion rate	Converted amount field (#converter #amount) not found; the exchange page showed the amount box and USD selector.
Escalation	ES-03 search by valid case ID returns that escalation	Could not read a case ID from the escalation list (list empty when the test started), so the search had nothing to find.

Skipped tests (7)

Module	Test	Type	Reason
Auth	PA-23 SMS option on forgot password navigates correctly	Skipped by precondition	No SMS option on forgot-password page
Signup	SU-28 OTP verification heading has id enter-your-verification-code	Skipped by precondition	OTP step needs a live signup
Signup	SU-29 verify-code button has id verify-code	Skipped by precondition	OTP step needs a live signup
Signup	SU-30 submitting empty OTP shows error-message	Skipped by precondition	OTP step needs a live signup
DT One	DT-07 bill payment for India (VOIP) reaches provider step	Parked on request	Bill payment parked
DT One	DT-09 bill payment country dropdown shows supported countries	Parked on request	Bill payment parked
DT One	DT-14 QR eSIM account can open the eSIM flow	Skipped by precondition	QR test account cannot log in on staging

Next steps

- **Re-run the 6 failures with one browser** to separate parallel noise from real issues: `npx playwright test --config=playwright.flow.config.ts --project=flow-chromium --workers=1 tests/flows/01-auth.flow.spec.ts tests/flows/03-send-money.flow.spec.ts tests/flows/04-exchange.flow.spec.ts tests/flows/14-escalation.flow.spec.ts --grep "(PA-29|SM-(06|17|20)|CE-07|ES-03) "`
- **SM-06, SM-17, SM-20** — same slow Send Money page as this morning; these passed with one browser earlier today.
- **CE-07 and ES-03** — new today. If they still fail with one browser, check the exchange page (converted amount field) and the escalation list on staging; the test may need updating.
- **PA-29** — the session ended after pressing Back; likely another browser logging in to the same account at the same time.

- **Switched off:** Help (16) and Currency converter (16) are not loaded — run them with RUN_PARKED=true when staging is ready.
